

# New Zealand Chapter Workshop (B10)

21 November 2018—Wellington, New Zealand  
Meeting Code HRT1822

## Why Participate?

- ❑ *Compare performance across NZ health services in key areas of mutual interest*
- ❑ *Share issues and innovations with your colleagues*
- ❑ *Develop practical action plans to improve your service over the next year*

As part of the NZ Chapter, all DHBs receive NZ specific reports on a six monthly basis. In New Zealand the Health Roundtable works with all DHBs visiting each hospital regularly to disseminate Health Roundtable reports and understand each member's specific context.

The NZ Chapter report was redesigned in 2017 and this year's meeting will focus on key findings from the new NZ Chapter report. The most significant change to the NZ Chapter reports is the inclusion of reports by ethnicity, facilitating clearer visualisation of variation in outcomes by ethnicity. The reports will generate discussion in the 2018 NZ Chapter meeting and stimulate debate and further understanding of the complexity of providing equitable care for all New Zealanders.

As all DHBs are members of the NZ Chapter this event is a great opportunity for networking. In 2018 the Health Roundtable will run a one day national workshop which will reflect a topic of national interest.

**SUBSCRIBE**

Select Roundtable B10 on your subscription agreement and return by email to: [accounts@healthroundtable.org](mailto:accounts@healthroundtable.org)

**COST**

\$A5,250\* for first facility in your network. \$A4,250\* for each additional facility. \*excl GST

Individual delegate venue fees are billed separately.

# 2018 New Zealand Chapter Workshop

## What do you need to do?

- ❑ Designate an executive sponsor to act as a key liaison with The Health Roundtable on meeting attendance, data and survey submissions, definitions, practices and policies
- ❑ Regularly review updated reports for questions, comments or issues
- ❑ Report on progress made on improvement aims
- ❑ Organise a multi-disciplinary team to attend the annual workshop
- ❑ Identify improvement objectives for implementation based on innovative ideas learnt

## What does The Health Roundtable do?

- ❑ Produces tailored NZ only reports six monthly, extracting data from the inpatient episode collection, highlighting trends and differences in performance
- ❑ Invites expert speakers who can share innovative ideas on the key topic for the workshop
- ❑ Facilitates the annual meeting, and provide help identifying innovative practices for implementation
- ❑ Provides phone and webcast support to all members to assist with data interpretation
- ❑ Liaises with the NZ Steering Group to make sure The Health Roundtable data and meetings are relevant for NZ priorities

The Health Roundtable helps health executives learn how to achieve best practice in their organisations. We collect and analyse operational and clinical data of our member organisations to search for innovations in patient care. We promote collaboration and networking amongst health executives and staff through our roundtable meetings, workshops, and other activities.
