The Medication Improvement Group was formed to bring together a multi-disciplinary group of Pharmacists, Physicians, Nurses and Quality and Safety practitioners, to identify variations in Prescribing, Dispensing and Distribution of Medications.

In 2018 the theme for the meeting is: *"The impact of variations in medication practices on patient care and patient safety"*

Episodes with Adverse Effect codes (Y40-Y59*)

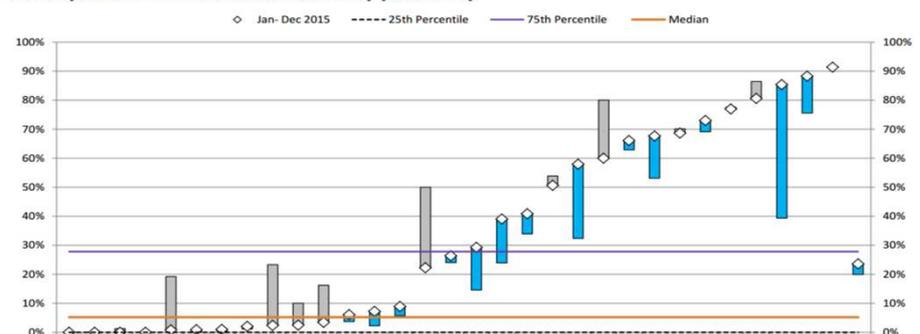

The group will work together to compare results in key areas, which may contribute to different outcomes.

Focused on:

- Electronic Prescribing Systems
- Medication Dispensing
- Patient Engagement
- Medication Processes
- Documentation variations
- Drug Storage
- Stock Management
- Hospital Workforce
- Hospital Culture

AMI episodes with an intervention by pharmacy

The Health Roundtable helps health executives learn how to achieve best practice in their organisations. We collect and analyse operational and clinical data of our member organisations to search for innovations in patient care. We promote collaboration and networking amongst health executives and staff through our roundtable meetings, workshops, and other activities.
